

**Wayfinding Design RFP 2010-01**  
**July 31, 2009 - August 7, 2009**  
**Q & A**

- Q. Does the "Proposed cost estimate for project" ask for an estimate on professional design service fees or sign construction costs? If it is an estimate for sign construction, would that be based on the sketches provided in the RFP?
- A. The proposed cost estimate for the project is an estimate of the cost of the services we are asking for you to provide in the Scope of Services and the Deliverables sections of the RFP.
- Q. My company will not be bidding on this project for the design portion, but I would like to know what we need to do in order that we be eligible for the manufacturing of the Wayfinding once the design is completed.
- A. A separate RFP will be released for the manufacturing and installation process once the design process is complete. All RFPs are posted on our website at [www.townofbluffton.com](http://www.townofbluffton.com).
